1 Introduction

This document contains a borderless table using the `booktabs` package and another table based purely on spacing/alignment, which are typical in scientific publications.

2 Booktabs Borderless Table

Here is a table showing model evaluation metrics:

Model	Precision	Recall	F1-Score	Accuracy
Strata-Native	0.9452	0.9312	0.9381	0.9540
Opendata-PDF	0.8120	0.7945	0.8032	0.8211
Baseline-OCR	0.8891	0.8540	0.8712	0.8902

3 Aligned Spacing Table

This table does not use any horizontal or vertical line commands, relying only on alignment:

Item Name	Quantity	Unit Price
Standard Widget	150	\$2.50
Super Widget	45	\$12.00
Mega Widget	10	\$99.99
